

## HSRA Enrollment and Lottery Policy

High School for Recording Arts adheres to Minnesota Statute for enrollment and admission requirements. Pupils must be high school age, 14-20 (21 if IEP eligible), in grades 9-12, and MN residents to enroll at HSRA.

We establish a yearly application deadline and accept all students who turn in completed applications by that date. If we receive more than 300, minus the expected returning students, completed applications by the application deadline, we will hold a random lottery to determine who will be enrolled within the remaining spots for the first day of that school year.

High School for Recording Arts gives preference to siblings of currently enrolled students, foster children and children of foster parents first and then randomly picks students from our waiting list.

Any additional students are placed on our waiting list. When admitting additional students during the school year, we hold enrollment orientations weekly as our numbers allow.
